Introduction

The Fact Book presents a global picture of the University, providing a snapshot of our operations and performances to both internal and external constituents. Our goal is to collect, analyze and disseminate data about various aspects of the University life. The collected data provides support for decision making, plays a role in the University's strategic planning by reflecting its current status, serves as a self-assessment tool, and offers important information about the proficiency of the academic programs offered at USEK.

We would like to thank our colleagues in the university units who assisted in collecting information for this Fact Book. As always, we encourage all comments, suggestions, and insights for future fact books. Please do not hesitate to contact us on oira@usek.edu.lb and let us know how we can serve you better.

General Information

USEK Overview and Mission

Overview

USEK was founded in 1938 as an independent private Catholic institution, by the Lebanese Maronite Order (OLM) who has served higher education in monasteries since the 18th century. Preceding the first Lebanese Law of Higher Education, put into effect in 1961, USEK was officially certified as a private higher education institution under the new law in 1962. Since 1997, the University has adopted the North American credit system in a move toward an American-style institution to facilitate students' credit transfer and recognition locally and abroad.

Mission

Since its founding, USEK seeks, and in accordance with the Article 92 of the Constitutions of the OLM (ed. 2012) and the social teaching of the Catholic Church on universities, to contribute to the development of all its students through quality educational programs and research in various fields of study.

By providing a high quality American-style education to its students, USEK intends to prepare future leaders for innovation, professional growth and life-long learning, in Lebanon, within the Middle East and throughout the world. USEK is committed to a faith-based educational development of its students rooted in the Catholic tradition whereby spiritual values and ethics as well as respect for cultural and religious pluralism are promoted.

NECHE Candidacy

USEK has been granted Candidate for Accreditation status by the New England Commission of Higher Education (formerly the Commission on Institutions of Higher Education of the New England Association of Schools and Colleges, Inc.). Candidacy for Accreditation is an affiliation status with the Commission which indicates that the institution has achieved initial recognition and is progressing toward accreditation.

Candidacy is not accreditation nor does it guarantee eventual accreditation.
Inquiries regarding the status of an institution affiliated with the Commission should be directed to the administrative staff of USEK. Individuals may also contact:

Institutional Evaluation Program

In September 2009, USEK completed the Institutional Evaluation Program conducted by the European Association of Universities (EUA) and became the first university in the Middle East to conduct such an evaluation program. The Institutional Evaluation Programme (IEP) is an independent membership service of the European University Association (EUA), the representative organization of universities and national rectors' conferences in 47 European countries.

European Institutional Accreditation

The European Institutional Accreditation was initially granted to USEK in December 2012 for a five-year period by the Accreditation Commission of Evalag. Re-accreditation visits were conducted in 2017 and 2023, thus re-awarding the evalag international label for Institutional Accreditation until 2029.

MATRIX Accreditation for the Student Support Services

In 2015, USEK received the initial accreditation to become the first university in Lebanon and the region to gain accreditation for its student support services, which aims to ensure its commitment to offer high quality services to its students for their welfare on campus, and ultimately for supporting them in their learning, career, and life goals. Re-accreditation visits were successfully completed in 2018, 2021, and 2024.

Architecture Program

The term "International Certification" identifies a program as comparable in educational outcomes in all significant aspects to a program accredited by the NAAB in the United States and indicates that it provides an educational experience meeting acceptable standards, even though such program may differ in format or method of delivery. The designation is valid for six years beginning first of January of the year in which the final visit (Visit 3) took place. In order to maintain the designation, the program must be visited again in the sixth year of the designation.

Schools with programs identified as holding NAAB International Certification are not formally "accredited" as that term is used with reference to programs in the United States and may not refer to their programs as "accredited" by the NAAB. However, students who graduate from internationally certified programs are able to apply for individualized review of their credentials on an expedited basis for purposes of the Educational Evaluation Services for Architects program administered by the NAAB on behalf of the National Council of Architectural Registration Boards.

USEK School of Architecture and Design has received the International Certification designation from the National Architectural Accrediting Board for the following professional degree program:

Master of Architecture degree (193 semester credit hours) – 2019.

French Equivalency of the Architecture Program

By decision of the French Minister of Culture on April 24, 2018, the Diploma of Master of Architecture awarded by USEK's School of Architecture and Design is recognized as being equivalent to the French Diploma in Architecture. This recognition was renewed on April 14, 2021, for a period of five years as of the academic year 2020-2021.
The French Diploma in Architecture allows its holder to practice as a salaried architect in France and offers the opportunity to enroll in "the training of the graduate architect to provide services in person". This training provides those who undergo it with the opportunity to be enrolled in the registry for exercising the profession as an independent architect.

Social Sciences and Humanities

Seven Social Sciences and Humanities programs have received the International Accreditation by the Accreditation Commission of evalag, EVALUATIONSAGENTUR BADEN–WÜRTTEMBERG http://www.evalag.de, known as a center of competence for quality assurance and enhancement and a source of support for higher education institutions and other scientific institutions, with commitment for good quality in teaching and learning, research and other services.

Commitment to Excellence

At USEK Library, we are dedicated to fostering an inclusive culture that connects us with our patrons of today and tomorrow. Our roadmap focuses on optimizing our resources and enhancing our discoverability.

Overview

The USEK Library is steadfast in its mission to support academic endeavors by preserving and conserving Lebanese cultural heritage across various formats, including newspapers, manuscripts, rare books, archives, photographs, and maps. Our fully automated library ensures that many resources and reference services are accessible from off-campus, offering a virtual environment that supports research.

We provide tailored reference and instructional services both online (via webinars, emails, chat) and in person, promoting a culture of information literacy at all levels. Researchers from Lebanon and beyond frequently visit our library for its rich historical collections, especially those on Lebanon and the Middle East. The library operates 40 hours a week, continually enriching its print and electronic collections to support university curricula.
